Comments

“ I met Anthony when I was about 14 or 15 years old. My Dad took me to Connecticut with him to look at some used machinery. Who would have known then that I would be in the wire and cable machinery business myself. I spoke with him a few years ago after my Dad passed away. Always a gentleman. A great guy.

My sympathy goes out to his his family for their loss. I'm sure he will be missed.

Sincerely,

“ I'll always remember going out on the boat with Grampy and my Dad and whoever else wanted to go crabbing for the day. We'd stay out on the Bay all day catching dinner. And the guys would clean the crabs on the way home. I always loved watching how they cleaned them on the way back to the beach house!!
